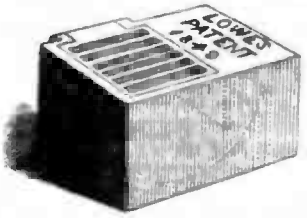
SANITARY IMPROVEMENTS.



LOWE'S PATENT
EFFLUVIA-TRAP SEWER GRATINGS;
OR STENCH-TRAP GRIDS,
FOR PUBLIC SEWERS, AND DRAINS IN HOUSES, WORKS, YARDS, GARDENS, COURTS, PASSAGES, CELLARS, AND SINK STONES.

Patronised and used at the Model Cottages, in Hyde-park, erected by H. R. H. Prince Albert, under the superintendence of the "Society for Improving the Condition of the Labouring Classes," and the "Metropolitan Sanitary Society," and by the Corporations and Local Boards of Health in London and the principal Cities and Towns in the Kingdom, and honourably mentioned by the Jury in Civil Engineering, Class 7, No. 62, Great Exhibition.

The Patent Effluvia Trap Gratings are applicable to all sizes of Street Sewers, and the Drainage in Houses, Works, Public Hospitals and Institutions, Yards, Passages, Gardens and Gravel Walks, Cellars, and Sink Stones, and also to the Sewerage in Turnpike Roads, Railways, and other places, by effectually preventing the noxious effluvia arising therefrom escaping to the surface, and thereby polluting the atmosphere.

The advantages of the Effluvia-Trap Sewer Gratings over the Bell, Syphon, Flap, or Drop-Traps, consist in their combining, in a simple, cheap, and compact form, a Sewer or Slough Grating, an Effluvia-Trap, a Sediment-Trap, and a Vermin-Trap, all together.

The simplicity of their construction, their general applicability, the ease with which they are examined and cleansed, their solidity of form, durability, perfect efficiency and cheapness, recommend them to the notice of Corporations, Architects, Surveyors, Builders, Contractors, the Trustees of Public Hospitals and Institutions, and all persons interested in the Sanitary Improvement of Towns, and to the Occupiers of all Houses where the Drainage is connected with the Main Sewers.

Upwards of twenty-five thousand of the Patent Grids are now in use by the Corporations, Surveyors, Commissioners of Sewers, or Local Boards of Health, in London, and the principal Cities and Towns in the Kingdom. A. LOWE & CO. Patentees.
Salford, Manchester, February 10th, 1852.
